

Excluding historical society and airworthy museum airplanes the legendary Noorduyn Norseman is arguably the oldest, essentially unmodified transport design in the world that continues to fly in its intended role, although we now seem to be moving into that private collector, warbird and nostalgic flights phase.

There are currently 40 Norseman on the Canadian Civil Aircraft Register, but 20 are not actively flying and 10 have had their Certificate of Registration cancelled.

Three known active airworthy Norseman reside outside Canada, including LN-TSN (Norway) and N164UC, N78691 (United States). See page 3.

There are many more Norseman on static display throughout the world. The primary intent of this list is to provide a reference for the Norseman community and enthusiasts about the worldwide active airworthy or under restoration to airworthy examples 83 years after the prototype, CF-AYO took to the sky on November 14, 1935. Keep them flying!

CANADA - COMMERCIAL (4)

REG.	SERIAL	OWNER, LOCATION	REMARKS.
CF-JIN	CC&F 55	Pending sale, Sarnia, ON	Converted Mk IV to V in 1957. Panoramic windows.

Based on the Canadian Civil Aircraft Register, then web surfing, e-mail, telephone calls, direct contact and feedback to bring this list as up to date and accurate as possible. Thank you to all for your help. The register continues to carry numerous outdated entries. If you have any verifiable information to add or delete, I would like to hear from you.
